DIABETES AND BED-WETTING

Glenmark gets USFDA nod

NEW DELHI: Glenmark Pharmaceuticals on Friday said it had received the final approval from the U.S. health regulator for its generic version of desmopressin acetate tablets used in treatment of diabetes and bed-wetting. The approval by the U.S. Food and Drug Administration (USFDA) is for strengths of 0.1 mg and 0.2 mg and the company plans to commence shipping the tablets to the U.S. immediately, the pharma company said in a statement. — PTI
