

Glenmark gets US nod for skin infection cream

Glenmark Pharmaceuticals has received the final approval from the US health regulator for its generic Fluocinonide cream used for treating a variety of skin infections.

Glenmark Generics Inc USA, the arm of Glenmark Generics, has been granted the final approval from the USFDA for its ANDA for Fluocinonide cream USP (0.1%),

Glenmark Pharma said. "According to IMS Health sales data for the twelve-month period ended March 2014, Fluocinonide cream garnered annual sales of approximately \$103 million," it added.
