ORAL PELLETS

Cipla gets USFDA nod

NEW DELHI: Cipla has received approval from US health regulator USFDA for Lopinavir and Ritonavir oral pellets used for treating AIDS in infants and young children. The approval by the United States Food and Drug Administration (USFDA) is for an innovative formulation – Lopinavir/Ritonavir 40mg/10 mg oral pellets, Cipla said in a statement. This novel child-friendly formulation has been approved by USFDA under the President's Emergency Plan for AIDS Relief (PEPFAR) programme, it added. — PTI
