

Elder to focus on anti-infectives

New Delhi: After selling its branded formulation business, Elder Pharma plans to focus on its anti-infectives vertical and strengthen its in-licence portfolio besides looking at expanding presence in global markets.

"Post the deal with Torrent Pharma, Elder plans to concentrate and build on its domestic business of anti-infectives, strengthen its in-licence portfolio and grow its business in the United Kingdom and Europe,"

Elder Pharmaceuticals CMD Alok Saxena said. At the same time, the company would explore the possibility of entering new therapeutics areas, he added. —PTI
