## **Mylan, Biocon get HC fiat on cancer drug**

**Mumbai:** The Delhi high court has stopped **Biocon Ltd** and the Indian unit of US-generic drug maker **Mylan Inc.** from claiming that their cheaper breast cancer drugs are "bio-similar" versions of Herceptin, the cancer drug developed by Swiss drug multinational **F. Hoffmann-La Roche Ltd.**

The court order followed a petition filed by Roche seeking to stop these low-cost breast cancer drugs being promoted as similar to the original.
