Suven inks licensing pact with Taro Pharma

NEW DELHI: Suven Life Sciences on Tuesday said it had given exclusive licence to Taro Pharmaceutical Industries to market its Malathion Lotion, used to treat scalp infection, in the U.S., Canada and Mexico, Suven Life said in a statement. "In consideration for the exclusive licence and right to distribute and market Malathion Lotion USP in North America, Taro will pay Suven a royalty and the arrangement is effective until April 2028 unless otherwise terminated," it added. Malathion lotion is indicated for patients infected with *Pediculus humanus capitis* (head lice and their ova) of the scalp hair. — PTI
