### Pharmatex looking for partner

Colmbatore, March 2

Pharmatex Healthcare Pvt Ltd, the sole distributor of Nitrile gloves, is looking for a marketing partner in each district and State. Its sales promotion executive Prakash Salve said the company is the sole distributor of Malaysian company - Hartalega's Nitrile gloves in India. "It is the future product and made from petrochemicals, unlike gloves made from latex. It is heat resistant, can be used in handling food, in treating cancer patients and so on," he said. The company started distribution of Nitrile gloves in April last. 'The market for Nitrile gloves is still nascent in India. We are trying to create awareness about these gloves,' he said. LN REVATHY
