

USFDA okays Lupin's drug

Kochi: Lupin on Wednesday said it has received final approval from the US health regulator to sell generic diabetes management drug Pioglitazone Tablets in the American market. Lupin said its US subsidiary, Lupin Pharmaceuticals Inc has received final approval for its Pioglitazone tablets from the US Food and Drugs Administration to market generic version of Takeda Pharmaceuticals USA Inc's Actos tablets. The company said in a BSE filing that its subsidiary will shortly commence marketing the product. — PTI
