

### Glenmark gets USFDA nod for contraceptive in US

Glenmark Pharmaceuticals on Thursday said it has received approval from US health regulator to market a generic oral contraceptive and a gel for treating skin inflammation in the American market.

Glenmark Generics, subsidiary of Glenmark Generics has been granted final approval for two abbreviated new drug approvals (ANDA's) from the United States Food and Drug Administration (USFDA), Glenmark said. The approvals are for Ciclopirox Gel 0.77% and Levonorgestrel & Ethinyl Estradiol tablets USP, 0.15 mg/0.03 mg, it added.
