

Cadila's Baddi plant gets USFDA nod

Ahmedabad, July 25

The formulations manufacturing plant of Cadila Pharmaceuticals Ltd (Zydus Cadila) at Baddi, Himachal Pradesh, has been granted approval by the US Food and Drug Administration (USFDA), the company said on Monday. With the approval, the plant, which caters to domestic and emerging markets' requirements, will start supplies to the US. Mr Pankaj R. Parel, Chairman and Managing Director, Zydus Cadila, said the approval for the Baddi plant will enable the company to have additional resources to cater to the growing needs of its US business. The Baddi plant, commissioned in 2004, manufactures oral solid dosage forms which include hard gelatin capsules and tablets. — **Our Bureau**
